**AMENDMENT AFTER FINAL**

Dear Sir:

In response to the Office Action dated April 10, 2003, please amend the above-referenced  
Patent Application as follows:

**IN THE CLAIMS**

Please amend claim 1 as follows:

1. (twice amended) A grip structure for a racket comprising:  
a surface material layer formed of PU material and having a flat surface;  
a substrate material layer formed of fabric and having a flat surface, said surface material  
layer and said substrate material layer laminated with each other; and  
a plurality of evenly distributed bonding combination points secured between said flat  
surface of said surface material layer and said flat surface of said substrate material layer  
bonding and combining said flat surface of said surface material layer and said flat surface of  
said substrate material layer, with the bonding combination points obstructing the immediate  
infiltration of water contained in the substrate material layer into the surface material layer when  
subjected to pressure.

Please add the following claims 2-5 as follows:
